"In the nine years that I have been involved with character education, I have never seen a program that was so meaningful to students!

Parents were very vocal about their support of this program and the positive influence that it had on their children!"

Deborah  
Principal  
Parkway Schools

"We saw students attend to the MAP in ways they had not attended in the past, test scores improved and teachers saw far greater test-taking performance than on tests over the proceeding years.

During the program the absentee rate dropped to an all time low which was attributed to the high interest the program was generating throughout the school.

Our students and staff have been positively affected by the theme, focus, and language of this program!"

Ginny  
Instructional Coordinator  
St. Louis Public Schools

"Students not only learn concepts of character education but they immediately put those concepts in to action.

"Teachers, administrators, and parents were pleased with the student's ability to apply the concepts in to daily interaction!"

"I want to congratulate you on an outstanding character development program.

Your program has what it take to succeed in an urban setting; empathy, consideration, respect, and high expectations for our children, plus relevant, high-interest instructional programming."
